Test Bug Report – Swag Labs (Login Page)

Number: -

TC_001

Title:-

Valid Username is Rejected on Swag Lab Registration.

Environment:-

Website: Swag Lab

Browser: Chrome Version 140.0.7339.185

OS: Windows 11

Description:-

When trying to register a new account on Swag Lab, the system rejects valid usernames that meet the allowed criteria. This prevents legitimate users from completing the registration process.

Preconditions:-

1.User is on the Registration page.

2. Internet Connection && last version of website.

Steps:-

1. Open the website:

https://www.saucedemo.com/v1/index.html 2.Enter

"locked_out_user " in username field

3.Enter " secret_sauce "in password field

4.click on login button

Actual Result:-

Field denied with error message 'Epic sadface: Sorry, this user has been locked out.

Expected Result:-

The valid username should be accepted, and the account should be created successfully.

Severity:-

Medium

Priority: -

High

Title:

Password field allows copy-paste on Swag Lab Login page.

Environment:-

Website: Swag Lab

Browser: Chrome Version 140.0.7339.185

OS: Windows 11

Description:

The password input field on the Login page allows copy-paste, which could be considered a security issue since many applications restrict this behavior to protect sensitive data.

Preconditions:-

1.User is on the Registration page.

2. Internet Connection && last version of website.

Steps:-

1. Open the website:

https://www.saucedemo.com/v1/index.html 2.Enter

"standard_user" in username field

3.copy ,paste password and Enter " secret_sauce "in password field

4.click on login button

Actual Result:-

The system allows copy-paste inside the password field.

Expected Result:-

The system should restrict copy-paste functionality in the password field for security purposes.

Severity:-

Low (because the login functionality itself is not broken, but it's a potential security concern).

Priority:-

Low/Medium (depends on the company's security policy).

Title:-

User can reach the inventory page without account login by directly entering the URL.

Environment:-

Website: Swag Lab

Browser: Chrome Version 140.0.7339.185

OS: Windows 11

Description:-

The application allows unauthorized access to the Inventory page without performing a valid login. By directly entering the inventory page URL into the browser, the user can bypass the authentication process and view restricted content.

Preconditions:-

1. User is not logged in.

2. Internet Connection && last version of website.

Steps:-
1. Open the browser.

2. Go to https://www.saucedemo.com.

3. Do not enter username or password.
4. Directly paste this URL in the address bar:

https://www.saucedemo.com/v1/inventory.html

5. Press Enter.

Actual Result:-

User is able to access the Inventory page directly without logging in.

Expected Result:-

User should be redirected to the Login page if not authenticated.

Severity: -

High

Priority:-

High
